The Mystery of the Cyber Friend

Zac O'Yeah

BW4JV

Section-I

Shree lives in an apartment in a small town called Katpadi Junction. Her mother works in a jewellery shop and her father is a taxi driver. Both the parents wanted Shree to learn computer. So, they were pleased to see her use it all the time.

The computer is Shree's friend. She always finds time for it. She uses it to find information for school projects and send e-mails.

Shree's aunt also stays with them. Everyone calls her Akka. Most of the time, she falls asleep in front of the TV watching her favourite old films. She gives Shree hot dosas stuffed with spicy noodles.

After having some snack, Shree likes to play, not the traditional games, with stones and shells that Akka likes to play, but games on the computer.

The computer doesn't just have games. It also has **Friends Net**.

Shree joined Friends Net two months ago, on her thirteenth birthday. After having some snack and tea, she chats with her school friends through Friends Net. They tell each other what they did since they met last on the school bus.

Shree says that she got extra sugar with her tea. One friend says, "That you get every day."
