TENSES

Tenses

Tenses are modification of a verb that help to indicate time, that is when a particular action takes place. A good knowledge about tenses will help us to describe things that take place at different times - past, present and future. Observe the logic and learn the structures to master the tenses.

Tense	Signal words	Use
Simple Present / Present Simple	• every day • sometimes • always • often • usually • seldom • never • first ... then	• something happens repeatedly • how often something happens • one action follows another • things in general • with the following verbs (to love, to hate, to think, etc.) • future meaning: timetables, programmes
Present Continuous / Progressive	• now • at the moment • Look! • Listen!	• something is happening at the same time of speaking or around it • future meaning: when you have already decided and arranged to do it (a fixed plan, date)
