LISTENING PASSAGE

Unit – 1

"Why Do Birds Sing?"

Why do birds sing? You might assume that birds sing because they are happy. While birds might be happy, they sing in order to communicate. One reason they sing is to stake a claim on territory. Birds sing to warn other birds to stay off their property. For example, a robin might stake a claim on a piece of land which measures about 200 feet wide by 200 feet long. This amount of land provides enough worms for the robin to feed its family. A bird maintains singing perches around the outside edges of its territory. The perches are high in the trees, so other birds can see and hear it. Birds also sing to find a mate. The length and complexity of the mating song gives information about the fitness of the bird. Healthy birds can sing longer, more complicated songs. Birds call to one another in shorter vocalizations in order to warn of danger and to locate one another. Birds sing instinctively. Young birds learn to perfect their songs by listening to adult birds and interacting with other birds. Birds in a local area might learn variations in the basic song which help them recognize other members of their group.

Unit – 2

Gardening is an Art

Gardening is a delightful pastime. One can grow vegetables, fruits and flowers in one's own garden. If you do not have open spaces near your home for maintaining a garden you can set up a garden on your roof! All you need are a few old buckets or tubs, some mud and seeds to plant.

Did you know? The horticulture society of Tamil Nadu gives soil bags with seeds to promote gardening in our houses! Stamp collection is nothing but collecting stamps from envelops that come by mail. This hobby is known as philately. We learn about different leaders, important days on seeing the stamps! We can also exchange rare stamps with our friends.
