Activity

## TREASURE HUNT

# Treasure in the Mathematics Club room

The teacher divides the students into four groups and gives each group a code and a clue and then asks them to cracking the clues to find

(i) the identity of the treasure (ii) the place of the treasure

(iii) the room in which the treasure is present.

You may take notes on this piece of paper as you proceed through the search

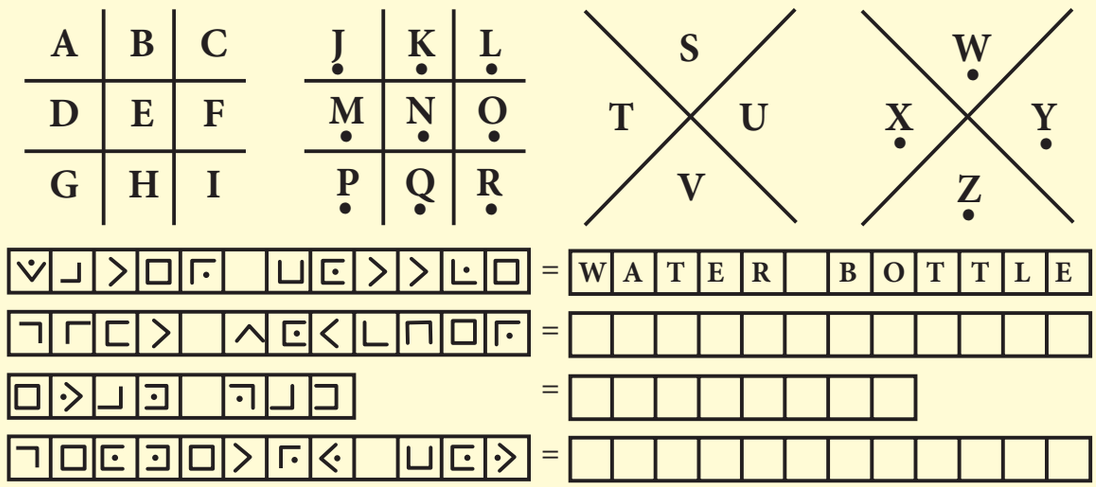

## Code 1: Pigpen

**Message:-** If you decode the clue here you can get the four expected treasure names

### *I. Fill in the blank boxes and decode*

The **Pigpen code** looks like meaningless writing, but it is quite easy to catch on to. Each letter is represented by the part of the "Pigpen" that surrounds it.

The first code uses the following **key**. To complete the code, you need to work out how to use the key to decode the message.

## Code 2: Polybius Square Cipher

**Message:-** If you decode this you can get the clue to identify the name of the treasure name

### *II. Fill in the blanks*

A Polybius Square is a table that allows someone to convert letters into numbers. Use the Polybius square rows and column values to find the code

| | | | | | |
|---|---|---|---|---|---|
| 5 | A | B | C | D | E |
| 4 | F | G | H | I/J | K |
| 3 | L | M | N | O | P |
| 2 | Q | R | S | T | U |
| 1 | V | W | X | Y | Z |
| | 1 | 2 | 3 | 4 | 5 |
